

## How big is 1mm

- **Materials:** Rules, pencils, paper
- **Instructions**
  - Ask students to demonstrate how big they think 1millimeter is in length.
    - They could use their hands or something in the room or draw it.
  - Demonstrate how to read a ruler and show the group how to read the centimeters vs. millimeters vs. inches.
  - Instruct students to draw a line that is only 1mm long.
